

PROTECT YOUR BUDGET BY KNOWING YOUR EQUIPMENT'S LIFE EXPECTANCY

WITH THE PROPER MAINTENANCE, HERE ARE AVERAGE LIFESPANS OF EQUIPMENT COMMONLY FOUND IN CHURCHES

A TYPICAL 20-TON PACKAGE UNIT SHOULD LAST FOR 15 - 20 YEARS
If maintained properly. If it isn't maintained properly, it could fail as soon as 10 years. At that rate, you need to replace this equipment twice as often. Do you want to pay twice the price for **HVAC** replacements?
